AWS 黑肉鬆 @ NTHU

Hello, how can I help you today?

How is my brother's condition recently?

Based on the recent search results, here is the summary of your brother's condition: - **April 25, 2025**: Your brother has been instructed to continue taking Losartan once daily in the morning. He has been experiencing dizziness when getting out of bed in the morning, feeling like he might lose balance. He has been asked to measure his blood pressure both in the morning and evening and bring the records to the next visit. - **April 23, 2025**: Your brother is recovering well after surgery with no signs of infection. He started with a liquid diet and switched to soft food the next day if tolerated. He was assisted to sit up and eat at 2 PM and reported feeling fine.
